**Cc:** Miller, Linda; Ferrell, Mark  
**Subject:** Notice of EPA Action

**Name of the Facility (Site):** White's Campground

**Town, State:** Gladys, Randolph County, West Virginia

**Statute, Section:** Safe Drinking Water Act (SDWA)- 40 CFR 141.400-404

**Name/Title of State Person Contacted:** J.D. Douglas, Unit Manager, Environmental Engineering Division, WVDHHR, Charleston, WV 304-356-4306

**Status:**

This action is to implement the SDWA Total Coliform Rule for the monitoring and reporting requirements for the presence of total coliform to prevent contamination to public water systems.

EPA is taking this action because the State does not have primacy for the Ground Water Rule. EPA has consulted with the State to notify them of our action and for accuracy in identifying which systems have initial monitoring violations under the Ground Water Rule.

**Thanks.**

**William C. Early**

**Deputy Regional Administrator**

**Middle Atlantic Region**

**U. S. Environmental Protection Agency**
